Other	3	9.4%

Did using the Google tools make it easier for you to collaborate with your team?

Yes	24	75%
Somewhat	7	21.9%
No	1	3.1%

Please tell why the Google tools made it easier for you to collaborate.

It made collaborating easier because I was able to work with my teammates in a faster and easier way.

it made it easier because their are tools to use to help you spell stuff.

Its made easier for corrections and to chat instead of the whole class talking to each other

google tools help me and my group to keep in contact if we were far away from them and google docs and google drive help me and my group to work together are work on are projects

Because If We Weren't Using Chat It Would Be Really Loud And Hard To Communicate.

Google tools make it easier to collaborate because even if you are far away from town you can still work and chat with friends.

The google tools made it easier because you can work in the halls and not in your group

Please tell why the Google tools made it easier for you to collaborate.

i dont know

it help me work

Google tools made it easier to collaborate because its faster. But also i didnt like how we couldn't talk because talking is way faster then chating

Google Tools are really easy and help's a lot for us to learn how to work with people not by your side

because we did not have to get up or sit beside them

google tools made it easier for me to collaborate because i could talk to people in my group with the chat and i could search things up on the document

it was better because more friend sip

Please tell why the Google tools made it easier for you to collaborate.

The google tools allowed us to communicate even when someone was in the hallway or at the other end of the school.

Its easier for you too give information and your opinions on chat or type anywhere and give it too your teammates.

Not as much moving around, and saved time

The Google tools made it easier for me to collaborate because the tools made it faster for me to help type my teams document, also to suggest this and comment on each others mistakes.

Because it made it so we didnt have to get up and move to the person we would be talking to

I think it helped with the spelling and other things like communicating. Also it was fun to use and easier so every body wasn't talking over them selfs.

Please tell why the Google tools made it easier for you to collaborate.

It made me be able to make group chat and talk to lots of classmates at once without yelling or getting up to go to them.

The google tools helped me collaborate better because it has chat that you can not just talk about the comments you can talk about organizing,gathering,spelling actually anything for education.Also the spell correct helps me because i just type then go in after and it gives me options of what word i meant to spell

it made it easier because, it is a little bit faster with the tools and everyone on the document at the same time is much more faster.

It made it easier because u could see your spelling mistakes and chat with your team members

Google tools make it easier to help me by getting more invermason

Because you don't have to get up and tell your team what to do. And you work better together

because we did not have to go and talk to people in the team

I just think that they made so easy and fast that we got so much done in so little time.

it didnt really but chat did sortof

It made it easier by making it possible to work at the same time as your partner

Please tell why the Google tools did not make it easier for you to collaborate.

Because talking is easier and faster
