Summary

What grade are you in?

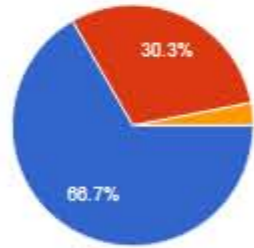

Grade	Count	Percentage
4	0	0%
5	4	12.1%
6	28	84.8%
7	0	0%
8	1	3%

Looking back at your school year, how often would you say you worked in groups (3 students or more)?

Frequency	Count	Percentage
We always work in groups	2	6.1%
We often work in groups	7	21.2%
We sometimes work in groups	24	72.7%
We hardly ever work in groups	0	0%

Do you enjoy working in groups?

Response	Count	Percentage
Yes!	22	66.7%
Sometimes	10	30.3%
I don't typically enjoy working in groups	1	3%

What do you enjoy about working in groups?

Reason	Count	Percentage
It's fun to work with your friends	19	59.4%
I learn better by collaborating with others	8	25%
The project takes less time because more people are working on it	11	34.4%
I like sharing my thoughts and opinions with people	12	37.5%
Other	6	18.8%

What do you not enjoy about working in groups?

In your opinion, what would help to make group work better?

I would say that the teachers should chose our groups and chose students that we work with.

we get to pick our groups

To help make group work better we can do smart people with people like me who are not as smart

If every one pitched in and helped, instead of some people slacking and letting others do all the work. But a group project includes everyone, not just two or three people out of the group. Also if some people didn't take over the group and everyone got a chance to do things, because sometimes people get left out.

You can help to make a group work better if you pick people that won't fool around with each other. Also you can have a contest with a prize so the group fools around less!!

In my opinion having more in a group is better(your work is done quicker,more options.etc)

In your opinion, what would help to make group work better?

i think paring up with people who are at the same level as you would help group work flow better.

my group work would be better if they listened more often

In my opinion I would help to make the group work better by having fun and doing lots of cool stuff and explore lots of cool things.

More concentration on are work.

In my opinion I think that it would be easier to work in groups if we made sure that everyone contributed a little and we all shared are thoughts.

if you got to work with your friends more often

In my opinion, teamwork would make a group work better because if everyone works together the assignment gets accomplished faster and the answer is even better!!1

In your opinion, what would help to make group work better?

Honestly.. I always get stuck with people who don't care about it and make me do everything

I want more teachers to help.

Teamwork and being focused

Letting who you want in the group.Like your friends.

if they would use my ideas for once

-bigger groups -more group work

if we can work in groups more often, so we can do better for working in groups

In your opinion, what would help to make group work better?

make sure the groups are with people you like working with and not people that fool around the whole time

more work between others, and more suggestions using there thoughts and brain work.

If we each did a part instead of all do the same thing

In my opinion I think that if everyone works together as a group that would help because sometimes people get mad if someone is not working but if everyone is nice and works well it will be easy and fun

Group work would be better if we had just a bit more time to figure the question out

by having a ten minuit chat with them then trying to work repitedly

we should have more teachers in are group

pick your own group

pick your on group

I think that electronics would make group work more because laptops are more fun then working on paper

I think that a turn to speak or something you have to hold to speak should be there because it's always so loud and I can't consentrate. THX ☺

If we were all on task and everyone would share their ideas. And not just one or two people sharing.

In my opinion, I think that it would help to make students write their opinion/strategy on their paper and after demonstrate their work. Then the others can give their thoughts on their opinion and help them and maybe teach them other strategies.

In my opinion to help group work better would be giving each student something to do then at the end share everyone's thoughts. Also we wont be running around asking can I do some if only one person is doing, we have to share.
